

RESEARCH ASSOCIATE – FULL TIME

Job Description

- Provide support to a Senior Oil & Gas analyst.
- Maintain and enhance company databases and models for a wide variety of Energy companies.
- Preparation of company reports and frequent presentations at the firm's Sales and Trading meetings.
- Maintain relationships with coverage companies in order to stay current with their operations.
- Requires a high energy level in a demanding work environment (long days).

Education Requirement

- Financial or business oriented undergraduate degree, such as a B. Comm.
- Enrolment in the CFA (or similar) program would be an asset.
- High degree of Excel spreadsheet knowledge and competence.
- Excellent oral and written communication skills.
- Attention to detail and accuracy is essential.
- Strong understanding of accounting and financial statement analysis.

Work Experience

This is an entry level position. If the candidate has prior work experience in the petroleum or investment industry this would be considered an asset, but it is not required. The candidate's key work experience should relate to the analysis of financial statements and financial modeling.

Compensation

Compensation will initially be a guaranteed salary with benefits. After a probationary period, this person will also participate in a discretionary performance-based bonus program.
