

## **CONFIDENTIAL CLIENT**

### **Financial Analyst**

Our client has an opportunity for a Financial Analyst. This individual will provide financial support and perform detailed financial analyses for the organization. Specifically, this position is intended to serve as expertise in the field of corporate level finance as it pertains to the power industry, Design-Build, EPC and EPCM contracts, and long term commercial arrangements.

The depth and breadth of this Group is unique and requires a skilled, mature, and collaborative individual with detailed awareness of electrical transmission or any other infrastructure related industry, project financing, and cost of service financing models.

As the successful candidate, you will have a graduate or post graduate degree. A post graduate corporate finance or economics concentration would be considered an asset, as would a C.F.A and / or M.B.A. You have 7 – 10 years experience and a detailed knowledge of electrical transmission or a related infrastructure industry. You have the ability to create, develop and manage electronic economic / financial models. You have superior financial and analytical skills with an ability to understand complex problems and generate solutions.
