

Canadian Dollar High Yield: The Emergence and Sustainability of the Asset Class

PRESENTED BY: **Calgary CFA Society**

FEATURING: **Greg Woynarski**
Head of Global Debt Capital Markets, Scotia Capital Inc.

Global re-pricing of financial assets has altered the traditional risk-reward profiles of debt and equity securities. Canadian Income Trusts need to re-capitalize; driving demand for stable debt-capital by rated and unrated entities. Investor demand for heightened returns is driving portfolio managers and sophisticated investors to use "crossover" strategies between asset classes and to re-classify securities and risk profiles in their portfolios. Learn about emerging opportunities in Canadian dollar High Yield, newer debt equity trading strategies, and become current on the emergence of a sustainable Canadian High Yield market.
