

## **BIG CHALLENGE. BIGGER OPPORTUNITY.**

CFA Institute Research Challenge

The CFA Institute Research Challenge is a great test for all students who are bold enough to face it. But, like any great challenge, the opportunities and rewards it offers are even greater.

This annual global equity research competition provides university students like you with hands-on mentoring and intensive training in financial analysis. Working in teams, you will gain real-world experience as you assume the role of research analyst and are judged on your ability to value a stock, write a research report, and present your recommendations. You will compete with peers from other schools to see who will become the local, regional, and global champions.

### **2019 PARTICIPATION**

**6,200+** Students

**4,000+** Volunteers

**1,100+** Universities

**150+** CFA Societies

**117** Local Challenges

**94** Countries
