

Technology driven, customer-focused and globally competitive, **SEAOIL Philippines Incorporated**, is harnessing all its energies to become the leading energy provider of choice among the Filipinos. Founded in 1978, **the SEAOIL Group of Companies** initially engaged in offering storage facilities for petroleum and petrochemical based products. With the deregulation of the oil industry in 1996, it ventured into retailing and now has over 100 stations nationwide. In 2006, Seaoil was awarded as the “Outstanding Gasoline Station” by the Consumer Union of the Philippines for the **third straight year**.

True to its value of aggressive product development, Seaoil takes pride in pioneering the development of alternative fuels. In August 2005, it was the **first oil company in the Philippines** to offer Ethanol blended gasoline. With this, and the adherence to excellence, efficiency and social responsibility, Seaoil is continuously working to create value for the Filipinos.
