

Showcase your operational analysis expertise within an exciting and growing business

Gateway Casinos & Entertainment is one of the largest casino and entertainment companies in Western Canada with nine facilities and approximately 3,000 employees. Gateway's focus has always been and will continue to be customer service, growth and integrity. Backed by a dedicated leadership team, Gateway was named one of the Top 100 BC companies in the recent Business in Vancouver listing of BC's biggest companies.

Located out of head office in Burnaby, Gateway is seeking a Manager, Management Reporting with responsibility for providing value-added analysis to the senior management team.

MANAGER, MANAGEMENT REPORTING

Reporting to the Director of Planning and Analysis and leading a team of analysts, you will oversee analysis of operational performance measures, the development of in-depth monthly reviews of business operations and the preparation of summary reports and recommendations for Senior Management and Board purposes. You will be responsible for writing the MD&A as well as leading the corporate budgeting process and other related analysis needed by the various properties. As the organization continues to grow, you will also play a key role in continuous improvement and cost control initiatives.

To be considered for the position, you are an accounting professional with a strong background in reporting systems and Excel modeling. Backed by 5-8 years related experience, you have practical commercial business acumen and are able to handle and analyze multiple sources of information. Using your judgment and detail orientation, you will produce timely and accurate reports with conclusive findings and recommendations. You are tech savvy with outstanding written and oral communication skills, have an inquisitive mind and are able to challenge assumptions to get to the right answers. You are a team player with a can-do and flexible attitude that can adapt well with changing priorities. CFA applicants are preferred.
