India at USD 5 Trillion
“If I knew then what I know now” Moments
Speaker: G. Maran

CFA Society is pleased to invite you to an interesting session on ‘India at USD 5 Trillion – “If I knew then what I know now” Moments’ by Mr. G. Maran.

Indian GDP size is expected to reach $5 Trillion size between 2025 to 2027. When we eventually reach the milestone, we are likely to have many “If I knew in 2019 what I know now” moments.

India’s growth to $1 Trillion from half a trillion in early 90’s was driven by sectors that did not participate in its growth to $2 Trillion. Similarly, our growth to 5 Trillion is likely to be driven by new themes. Maran’s team collated some interesting facts about this evolution and present them in a Q&A format. Not to test knowledge of the participants but to help understand driver of our journey to $5 Trillion economy and the 100 bagger opportunities the journey is likely to present for investors and entrepreneurs pursuing those trends.
