The ET Boardroom Strategy Masterclass delivers intense two-day training on the tools you will need to shape your board into a powerful, professional strategic partner and governance fiduciary. Interactive sessions will offer case histories, roundtable discussions, valuable information sources, and virtual board meetings, all aimed at building the structures and actions needed to shape your board into a solid strategic tool. The program also includes detailed, step-by-step guidance on the development and role of boards, governance best practice, structuring effective boards, effective leadership, and managing “inside the boardroom” conflicts. Be prepared for active participation, extensive give-and-take discussion, and gaining a thorough knowledge of improved company governance, all in a confidential learning environment. Then, at your next board meeting, you’ll bring a gold mine of ideas, tips and tools to reinvent how your board functions.
