BIG CHALLENGE. BIGGER OPPORTUNITY.

2019 CFA Institute Research Challenge

The CFA Institute Research Challenge is a great test for all students who are bold enough to face it. But, like any great challenge, the opportunities and rewards it offers are even greater.

This annual global equity research competition provides university students with hands-on mentoring and intensive training in financial analysis. Working in teams, students gain real-world experience as they assume the role of research analysts and are judged on their ability to value a stock, write a research report, and present their recommendations.

Is your university up to the challenge? Form your team and give your students the opportunity to compete against their peers from other schools to see who will become the local, regional, and global champions. Your participation also gives you the chance to showcase your university on a highly visible local, national, and global stage.
