Introducing the Global CFA Society Passport Program. A new benefit for Members of the Society! CFA Society Japan is proud to be part of the Global CFA Society Passport Program.

Do you travel to areas that have a CFA Institute member society? Are you looking to network with local professionals and fellow charterholders in your region or around the globe? As a member of CFA Society Japan, you are part of a community of over 125,000 CFA Institute members representing 149 countries and 144 societies in 69 countries.

CFA Society Japan is pleased to offer members of any member society the opportunity to attend our events at the local member rate. And in return, Members of the Japan Society may attend the events and activities of societies participating in the Passport Program at their member rates.

As a member of your local society, your Global CFA Society Passport Program benefits include:

- opportunities for extended global networking
- access to global professional development opportunities
- more opportunities to earn CE points

These events and opportunities could result in improved understanding of the local market, as well as global networking and career opportunities.
