MERGER RATIFIED

8 December 2017

Yesterday 7 December 2017 both CFA Society Netherlands and VBA beleggings-professionals voted to ratify the merger of the two organisations. As of 1 January 2018 a new association CFA Society VBA Netherlands emerges.

With overwhelming support, three years of hard work by both organisations were rewarded. Aside from members, also industry organisations, regulators, policy makers and leading employers in our industry also expressed their support. CFA Institute shares our excitement and is fully behind the merger.

This is not the end of the process, but the beginning. From today onwards we will put our efforts into creating a new inclusive, dynamic association that encompasses the best of both. Besides the many benefits that our members will realise there will also be challenges, as even successful marriages have their ups and downs. With the same spirit we will deal with them, and work on our joint future. We hope you keep us informed of the progress you notice, as well as areas in need of improvement, so that we can continue to do better.

We look forward to our collective future as CFA Society VBA Netherlands.

On behalf of the board of CFA Society Netherlands,
Jacco Heemskerk, CFA

Meet the board of CFA Society VBA Netherlands:
