

Program committee

The Program Committee organizes meetings that are interesting for members. Approximately 25 meetings are organized on an annual basis. Some of them are organized by the various professional committees.

The program committee ensures that the meetings are taken care of down to the last detail. She is the first point of contact for speakers, arranges the location and provides a varied selection during the association year. It also monitors the quality of the meetings and examines whether both the theory and the practice surrounding a subject is well-lit.

The meetings provide an ideal opportunity to 'network'. The PC therefore stimulates the social aspects of the meetings.
