### **Editorial board VBA Journal**

The VBA Journal is the association magazine. It is a semi-scientific publication with a practical approach. With a keen eye for developments in the financial markets, and in the financial institutions themselves, the VBA Journal is a platform for current discussions within the investment profession. The composition of the editors is a good reflection of this.

The VBA Journal is published four times a year in an edition of approximately 2,300 copies. The magazine is read by both members and other interested parties. In practice, the range of the VBA Journal is larger. The accessible writing style, often in Dutch, makes it a valuable source of information for investors, but also for example (pension fund) directors or their advisers.

On this website you can view and download the articles from previous years.
