## FRAMEWORK

The workshop will be based from the "**Ethical Decision-Making Framework**" developed by CFA Institute. It is a tool for analyzing and evaluating ethical scenarios in the investment profession. The Identify—Consider—Act—Reflect framework advances a decision-making structure for situations that often fall outside the clear confines of "right" and "wrong." Neither a linear model nor checklist, the framework provides a summary of the key elements of making ethical decisions. The framework is offered with the understanding that there likely will be additional influences, conflicts, and actions unique to each ethical scenario.
