

Setting a higher standard for the Oregon investment community

## Application for Student Membership

The objective of the student membership category is to provide educational and career opportunities for students who intend to pursue careers in the investment decision-making field. For a one-time membership fee of \$50 and professor recommendation, undergraduate and graduate students of area universities may join our Society until they are no longer students.

As a CFASP student member, you may participate in all Society events, including but not limited to our monthly speaker luncheons, networking and other special events (annual forecast dinner, annual golf tournament, etc.) at the discounted member rate. For information on upcoming events, visit [www.cfaportland.org](http://www.cfaportland.org).
