USC/CFALA CFA® Review Program

Since 1984, **CFA Society Los Angeles, Inc. (CFALA)**, in partnership with the University of Southern California, Marshall School of Business (USC), has offered its Chartered Financial Analyst® (CFA®) Review Program to candidates studying for all three CFA examination levels. For Spring 2014, we offered streaming media recordings of Levels I, II and III. For Fall 2014, we will offer CFA Societies the opportunity to purchase streaming media recordings of our Level I Review Program.

About Our Streaming Media Program

The USC/CFALA CFA Review Program features state-of-the-art streaming media recordings of structured classroom-based instruction by practitioners in the financial industry and academics from local universities. Instruction is focused on the comprehension of the assigned materials in the Study Guides with an emphasis on the Learning Outcome Statements.

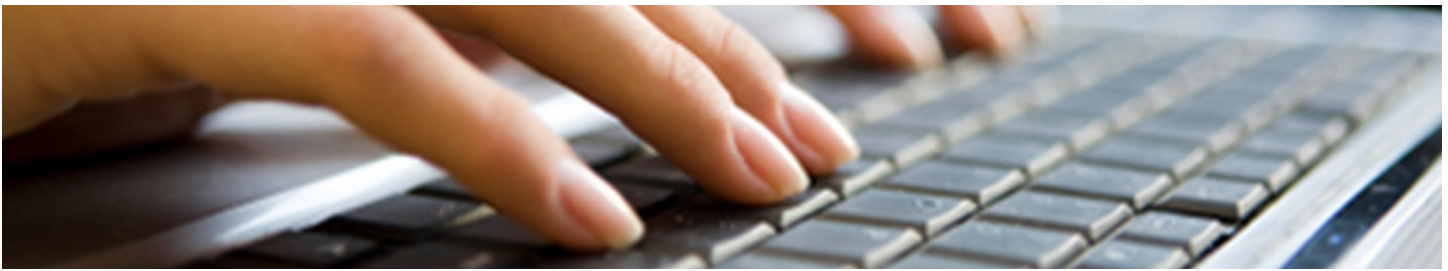

The program includes secure access to streaming media recordings of all study sessions. Level I recordings offer over 60 hours of instruction with

bonus classes in study/test-taking tips, Accounting Essentials, an Accounting Review and Quant Review. Level II offers over 50 hours of instruction and Level III offers over 34 hours. PDFs of each instructor's PowerPoint presentation are included.

If your candidates have high-speed internet access, the USC/CFALA CFA Review Streaming Media Program can provide your society with a complete preparation course. You may choose to offer access to the recordings in a classroom environment or provide access to individual candidates.

To simplify the registration and administrative process, the USC/CFALA CFA Review program will provide each society with a marketing info sheet with a unique registration link. Each society will market the program to its local candidates. We will enroll the candidates in the program, collect funds, supply secure log-in and passwords to the recordings and presentation material as well as email communication with faculty and program coordinators.

At the end of the registration period, we will provide each society with a list of their registered candidates and a rebate based upon their total number of registrants.
