EU:

EU General Info

On coming to EU Member states:

The EU Commission has just published a new leaflet containing all the practical information for the people fleeing the war in Ukraine.

It includes all the information about:

-  Entering in the EU
-  Rights in the EU

-  Travelling in the EU
-  Temporary protection
-  Asylum

If you are working with refugees or volunteering in support of people fleeing the war, you can download, print and distribute the leaflet at will.

PwC Denmark's Transfer Pricing team

Welcome job applications from Ukrainian charterholders and candidates.

They don't have a specific job advert to share - but Ukrainian charterholders and candidates are welcome to direct applications to Nikola, Troels and Tim. They will take the process from there.

The prerequisites they have are typically: Master's degree for full time positions; Bachelor degree for student positions and proficient knowledge of English for all positions. Danish is not a must but of course is a plus.

AllianceBernstein

The job advert is only open for applications from Ukrainian charterholders or candidates.

If interest in below or any questions, please contact Portfolio Manager, Rasmus Lee Hansen (rasmus.hansen@alliancebernstein.com).

Research Analyst at AB Global Core equity (Copenhagen)

AB Global Core Equity is looking for a talented and ambitious equity analyst to join the Global Core Equity strategy.

AB Global Core Equity

AllianceBernstein (AB) is a leading global investment management firm with over 4000 employees across 51 locations in 25 countries. Firm-wide AuM exceeds \$700bn. Through high-quality research and diversified investment services, AB serves institutions, individuals, and private wealth clients in major markets worldwide. In terms of culture and citizenship, AB has a clear commitment to racial equality, diversity and inclusion emphasis, embracing diverse talent.

AB Global Core Equity is an active, fundamental, high conviction core equity strategy run by a team of 8 investors in Copenhagen. The philosophy of the strategy rests in the idea that *the market does not always efficiently price future long term cash flows*. In terms of implementing this philosophy, we

believe that highly active stock picking combined with style control at the portfolio construction level delivers high and stable alpha through varying market cycles.

You'll be joining a team that has been at AB for 7 years, but majority of team has been working together more than 15 years, with the co-CIOs being part of this investment strategy in excess of 20 years. The team has been successful in delivering an active, fundamental, high conviction equity portfolio that has demonstrated style neutrality over time and superb downside capture characteristics. In this way, alpha has been strong, and commercial growth has been a success. AuM for the strategy now exceeds \$20bn.

Your role

We're looking for a candidate that i) has an analytical and curious mindset, ii) has a desire to accumulate knowledge every day, iii) is a fast learner, iv) is not afraid of making mistakes or being wrong and using those instances to learn and improve. You have a keen interest in financial markets and you're humble towards the fact that competencies and success require hard work and experience.

Your role will be to support and assist the Portfolio Managers in their day-to-day work for identification and analysis of potential investment opportunities. Such work requires significant research (primarily of qualitative nature), to which you'll be expected to contribute, either through written documentation and/or conduct financial and related data analysis on public listed companies. Our valuation analysis includes detailed financial projections based on thorough understanding of key value drivers for the company, industry, and market. Meeting and engaging with company management teams is an integral part of this work.

We expect that you have finished your master's degree education at the top of your class, and have 1-3 years of relevant working experience. Past equity research or finance experience is preferred. A strong understanding of fundamental economic and investment theories is required, and skilled user of Excel is an advantage. We expect you to enroll in the CFA-program when you start your work at AB Global Core Equities.
